

Calling all property owners in Meadow View Heights!

We need you to update your contact information with us. Many of you have out-dated information in your records--you've moved, your phone number has been changed, etc. And for quite a few of you, we have no contact information at all.

We need this information so that you can be contacted immediately in case of any confusion regarding your dues payment, for notification of meeting changes, in case of any emergency, etc.

Rest assured that your Board will NOT share your information with ANYONE, not at any time.

Help us be more Green

And please include your e-mail address. If we can send even 75% of our members their newsletter by e-mail, it will save lots of trees as well as thousands of dollars of your money.

Below is a contact information form for you to fill out and send back to us--or you can e-mail the information to www.meadowviewheights.com. Even if you're SURE we have your correct information, please take the time to do this so we can double check it.

INFORMATION, PLEASE!!

Name _____ Home Phone _____

Cell Phone _____ Alternate Phone _____

Primary residence address _____

E-mail address _____

MOUNTAIN INFORMATION:

Lot # _____ Street address _____

Duck Creek mailing address _____

Mountain Phone _____

Please check here if you wish to continue to receive a paper copy of the newsletter, rather than receive one electronically.

Also, we would like to know what type of information you would like to see in future newsletters. (In fact, the Board welcomes all submissions. So write an article yourself and submit it to the Board for consideration.)

Garkane Energy Cooperative, Inc.

“Our Energy -- Our Future”

A Dialogue with America

Join the thousands of American consumers who have already sent 469,000 letters and emails to elected officials asking about our nation’s energy and climate policy.

Start by asking your elected officials these questions to get the dialogue headed in the right direction:

Capacity:

Experts say that our nation’s growing electricity needs will soon go well beyond what renewables, conservation and efficiency can provide. What is your plan to make sure we have the electricity we’ll need in the future?

Technology:

Our country faces a crisis as electricity use increases faster than available supply. I believe that by unleashing American ingenuity we can solve this problem. What are you doing to speed the development of new technology which will allow me to have the electric power I need while meeting our national climate policy goals?

Affordability:

Balancing electricity needs and environmental goals will be difficult. how much is all this going to increase my electric bill and what will you do to make it affordable?

Please go to www.OurEnergy.coop to learn more and begin the dialogue now.

Please take a moment and send your email to these elected officials:

Senator Robert F. Bennett	tyler_owens@bennett.senate.gov
Senator Orrin G. Hatch	jared_brown@hetch.senate.gov
Congressman Rob Bishop	justin.harding@mail.house.gov
Congressman Jim Matheson	neeta.bidwai@mail.house.gov
Congressman Chris Cannon	rachel.dresen@mail.house.gov

Thank you.
